Respected Parents,

"The parent is the teacher at home and the teacher is the parent in the school," says Ezhil Uzhathi.

When parents and teachers work as partners, children do better in school and at home.

It's not about better teachers but about stronger partnerships between teachers and parents.

Teachers or parents cannot educate children in the best way by working alone - they need to collaborate and work hand-in-hand for the best learning experience. Parents are the first mentor of the child and the teacher is the second. Both have an immense contribution and responsibility in shaping child's personality.

"It is the supreme art of the teacher to awaken joy in creative expression and knowledge." Teachers play a crucial role in society as they prepare the younger generation to face the future with courage and knowledge. A teacher can be a best friend, a third parent, an inspiration, a role model, a well-wisher, etc., for the students and guide them on the right path to succeed in life. School, teachers and parents play vital role in holistic development of the child.

Poem – Mr. Wick

Mr. Wick is a detective, he loves to think,
He thought things like, what if pirates made their own ship sink?
Mr. Wick is famous, for the cases he solved,
He is very good and rarely makes messes

Once he solved a case, it was for Mrs. Tip,
He found she was poisoned, when she took a coffee sip

Once he solved a case of huge robbery, where he found a pen drive,
It contained an address saying: B-15, Sunshine residency, street no-5
Then he just took his suitcase, once out he jumped in his jeep.
He followed the address and was just in time for the thief's face peep.

He followed the thief, the thief started to run,
He was very scared to look in front and then tripped over a basket of bun.
It made him fall, it made a mess.
Mr. Wick caught him and that was the end of the case.

Once he found that, it was a case of child kidnap.
Then he just invested, the area of case on map.
He found the clue and followed the clue.
Then he reached a place with lights blue.

The place was big, the place was smoky.
It was very strange and it was very choky.

Suddenly he heard a noise, it was a child's cry.
He followed the voice, when there was another cry
He then found a door, he saw it led to a room.
He opened the room and found the child, it was crying like was left in a doom.
He was very witty, he was very quick,
He solved many cases, his name was Mr. Wick.
